Verified coworking
locations

67

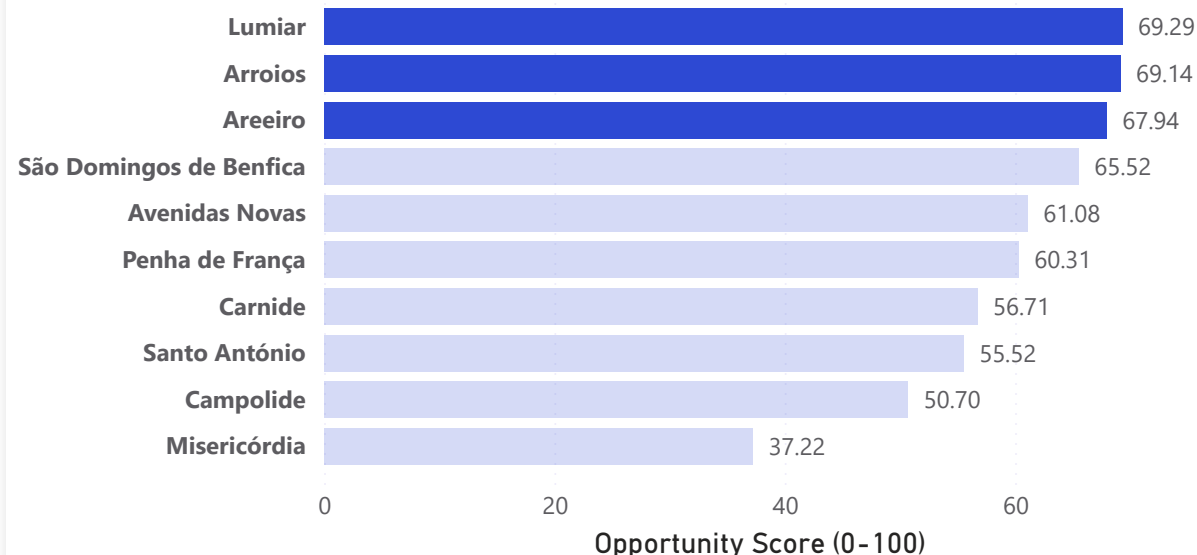

Shortlisted parishes

3

Which three Lisbon parishes should a coworking company consider for a new location?

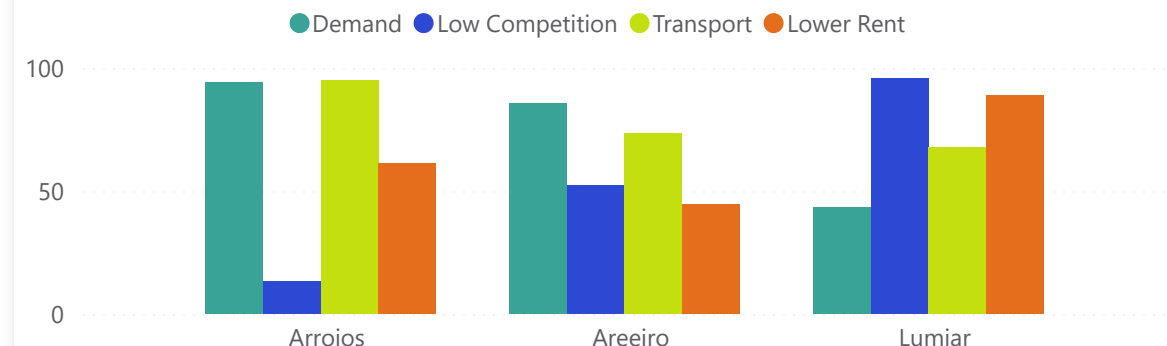

Lisbon is divided into 24 administrative parishes.

The highest Opportunity Scores form a close three-parish shortlist

Recommendation: Continue the location search in Areeiro, Arroios and Lumiar. Compare available spaces, lease terms, local demand and competitor offers across all three before selecting a location.

The shortlisted parishes perform differently across four factors

Each shortlisted parish represents a different business option

Parish	Business option	Rent, EUR/m2/month	Verified coworking	Opportunity Score
Areeiro	Balanced option	17.73	2	67.94
Lumiar	Lower-rent option	15.71	1	69.29
Arroios	Strong-demand option	17.50	8	69.14

Demand is a proxy: working-age population density 40%, office density 30%, cafes 10%, hotels 10%, and higher education 10%.
